The Artist - Jordan Luebben

<http://www.chainsawd.com/>

It was the mid-80s, my father and uncle were on a logging operation. In the late 80's, my uncle got caught carving mushrooms on the job and shortly after my father quit logging altogether to start carving.

Thousands of morels over the years were produced. Through the years of working on them for my dad, I found my own way of making them.
